

MEDIATION TRAINING: INTRODUCTORY 40-HOUR CERTIFICATE TRAINING

March 30, 31 and April 1, 6 and 7, 2016

*Co-Sponsored by The Opportunity Alliance
& Community Mediation Services - Volunteers of America Northern New England*

This training is for individuals interested in becoming a mediator or applying mediation skills to their personal and professional lives. This program will focus on both the problem solving orientation (facilitative) and transformative orientation models. The training is highly interactive and will incorporate different styles of learning including presentations, demonstrations, interactive discussions and role-play practice with mediation scenarios. Guest mediation coaches will provide additional guidance and experiences.

This 40 hour training focuses on learning new skills, understanding how to apply them to your life and developing a mediation practice. By the end of the training, participants have reported an amazing shift in the way they talk, listen and problem solve – at work and in their family life.

In this training you will learn:

- Conflict theory and management
- Theories and practice of mediation – both problem solving and transformative
- Screening for mediation appropriateness
- Ways to build and enhance client rapport
- The impact of mediator influence
- Standards of mediator practice & ethical issues
- The professional limitations of mediation practice

At the conclusion of the training, participants will receive a Mediation Certificate, a commonly accepted state and national standard. Note: Participants are expected to attend all training sessions to receive a certificate.
