Bible Study -@1:30 Every Tuesday

Library 6/9@ 11:00AM

BINGO Every Wed@6:30PM

Mental Health First Aid @ 6/17

8:00 – 5:00

TICK SEASON IS HERE!

DEET, showers, and tick checks can stop ticks.

Reduce your chances of getting a tick-borne disease by using repellents, checking for ticks, and showering after being outdoors. If you have a tick bite followed by a fever or rash, seek medical attention.

After You Come Indoors

Check your clothing for ticks. Ticks may be carried into the house on clothing. Any ticks that are found should be removed. Placing clothes into a dryer on high heat for at least an hour effectively kills ticks.

How These Bills Could Affect You!

We hear it all the time – “I want to age in my own home” One of the greatest services in place to help this happen (Personal Support Specialist)

In order for aging in place to succeed, providers must be able to attract and retain an honest, dedicated and hardworking workforce and deliver the service with reliability and quality.

The Legislature is considering two bills addressing the issue of reimbursement for direct care — **L.D. 1350** and **L.D. 886**

If you want more information on what you can do or a summary of these bills stop by the Service Coordinator’s office.

USDA CLARIFICATION

To all of those that are currently on USDA – they are requesting yearly income verification – so please stop by my office to recertify for the program. Just bring me your income verification to be faxed.

Also, the items brought in with the brown bags numbered 1 & 2 are for those that are on the program. If there is extra left over then others can help themselves. Due to some of the confusion our Volunteer is requesting that you do not start to pick up your items until he has completely unloaded all product.
